Dear Helen,

I would like to congratulate you on organising such an excellent and informative workshop. I know a lot of people learnt a great deal from it. Can you pass on my thanks to Doctor Friedman for his fascinating talk on Staff Motivation? I realise how lucky we were that he was able to find the time for us. The feedback from the staff was very positive. Let's hope we actually see an improvement in staff motivation as a result!

By the way, I'm missing my list of addresses of the delegates who attended. Did I happen to leave it in your office? It's just that I haven't seen it since our meeting on Friday.

Thanks again for a great day,

Anne

Here's a mouth-watering cookie recipe for you to try at home. You will need two cups each of margarine, white sugar and brown sugar; four eggs, four cups of flour, 1 teaspoon of baking powder, a pinch of salt and a cup of milk chocolate chips. First of all, preheat the oven to 350 degrees Fahrenheit. Take a large bowl and cream together the margarine and sugar until they are smooth. Then add the eggs, one by one. Sift the flour and baking powder into the mixture and add the salt. Finally add the chocolate chips. Drop spoonfuls of the mixture onto ungreased cookie sheets and bake for eight to ten minutes until the edges are golden brown. Cool for one hour before eating.

1) Which of the following is NOT an ingredient in the recipe?

- a) cream
- b) flour
- c) eggs

A new ruling which came into effect last week requires some homeowners to purchase new smoke alarms. The ordinance states that there should be a fire alarm installed in every bedroom of the house, and these alarms must comply with certain safety standards. Some

local residents are displeased at these new regulations. Gwen Ellis of McKinley says that to meet with the new regulations, she has to buy five new alarms to replace the ones she installed just six months ago. With fire alarms costing up to \$20 a piece, this is an unwelcome ruling for many people. Fortunately, the McKinley Fire Department is offering grants for homeowners and will provide and install new fire alarms free of charge. If you have small children or are older than 65 years of age, you may be eligible for these. The McKinley Fire Department has 5,000 smoke alarms to give away. To inquire about obtaining a free alarm, or to find out whether you qualify, call 692-569-0372.

1) Why did Gwen Ellis have to buy new smoke alarms?

- a) her old alarms stopped working
- b) she now has a young family
- c) her previous alarms didn't meet the safety regulations
- d) she has just moved into a new house

2) Which of the following is true about the new rule?

- a) Every house should have five fire alarms.
- b) All fire alarms must be of a certain quality.
- c) All fire alarms need to first be approved by the Fire Department.
- d) All fire alarms must be less than six months old.

3) Which of the following people may be able to receive a free fire alarm?

- A) an elderly couple
- B) a family of two adults and two teenagers

- C) a woman living alone
- D) a man who owns his own home

4) How much do five fire alarms cost?

- a) \$20
- b) \$100
- c) \$120
- d) \$4

5) What does the number 5,000 refer to?

- a) the number of people who are eligible for free smoke alarms
- b) the number of smoke alarms which need to be replaced in the town of McKinley
- c) the number of smoke alarms which have already been installed by the Fire Department
- d) the number of smoke alarms which are available free to certain people

Talk :

“Today I'm going to give you some advice about record-keeping. Keeping accurate records is very important because if a patient is unhappy about his treatment he may want to make a complaint to the surgeon. These records will help us to make a case. Always write your name , the date and time on all the records. Don't use pencils or colored pens. Use black ink. If you make a mistake just cross it out with a single line. Don't use correction fluid. Don't try to file the records away yourself or they may get lost. Put them in this box here. The administration manager will make sure they are filed away correctly.”

1 Where does the woman work?

- A) in a shop
- B) in a doctor's surgery
- C) in a train station
- D) in a factory

2 What should someone do if they make a mistake on the records?

- A) correct the mistake using pencil
- B) use correction fluid
- C) draw one line through the mistake
- D) use a coloured pen to highlight the mistake

3 What does the woman tell her colleagues to do with the records?

- A) file them away
- B) give them to the administration manager

- C) put them in a box
- D) give them to the patient
